

## SPEED FENCE HOOK

Enabling a strong quick-set connection for Speed Fence to the Speed Post and High Post

The Speed Fence Hook is designed to easily install on both the Speed Post and High Post and allow fast and secure install and removal of up to two Speed Fences.

### FAST. SIMPLE. SAFE.

The Speed Fence Hook clamps securely to the Speed Post (or High Post) with a wingnut so no tools are required.

The drop lock system allows for up to two Speed Fences to slide into the Speed Fence Hook and be secured simply by letting the drop lock close behind the top rail. This makes cycling fast, and reinstalls reliable and safe.
